WINDOWS WELL THOUGHT PVC RANGE OF PRODUCTS

www.mallorca-windows.com

FOR PASSIVE HOUSE

Save for years. Guaranteed U_w for reference window of less than $0.79 \text{ W} / \text{m}^2\text{K}$. The lower, the warmer!

SAFETY	★★★★★
QUIET AND WARMTH	★★★★★
DURABILITY	★★★★★
QUALITY	★★★★★
DESIGN	★★★★★

Select the window for the best possible performance on the market. Designed for very demanding, modern single-family housing. Our passive windows relative to traditional PVC windows are:

- ✓ Thicker profile sections with more chambers,
- ✓ Solid triple glazing,
- ✓ Always lower heat permeability.

That means that in your home, you can ensure peace and reduce heat loss up to 30%. With these windows in winter you will not complain about the cold, and in summer you feel really comfortable.

TRADITIONAL HOME, APARTMENT AND HOUSING

We create a safe and beautiful space. In many colors and shapes. Guaranteed U_w below $1.3 \text{ W} / \text{m}^2\text{K}$ for reference window. Are You are looking for a solid PVC windows with high performance of heat penetration for a house or flat? Choose the perfect solution among traditional windows.

IDEAL 4000

- ✓ **Exceptionally strong.** Five-chamber B Class profile with a width of 70 mm equipped with a large compartment steel reinforcements allows you to create window of really large dimensions
- ✓ **Classic style.** Checks in with modern architecture and the renovation.
- ✓ **Larger glazing.** Reduced frame height is more light in the house.

Choose Ideal 4000 if you care for a maximum increased glazing and are looking for a classic style. The powerful profile allows you to achieve good thermal and acoustic insulation, taking care of the household budget. 2 options in 70 mm and 85 mm

RoundLine

with slightly rounded line wings

SoftLine

with semicircular sash and frame

KONCEPT

A class quality A class five-chamber profile of 70 mm width stained to the color of the veneer is a good thermal insulation, acoustic and aesthetic appearance of the frame after many years of use.

- ✓ **Peace of mind.** Robust MacoMultimatic fittings, increased security.
- ✓ **Extra accessories.** Swisspacer, ColorFull, Sealed glazing unit with $U = 1.0 \text{ W/m}^2\text{k}$ until $U = 0.5 \text{ W/m}^2\text{k}$ and more.

Good shape. Thick walls of profiles for excellent statics of windows, even with changes in temperature of -2 to 16 degrees Celsius. Steel reinforcements provide stability and prevent unwanted distortion.

PIXEL

- ✓ **6-chamber class A window profile** with a 3 mm wall thickness and 70 mm casig depth.
- ✓ **Super parameters.** Sealed in slimmer than ever profile of 70 mm
- ✓ **Extra accessories.** Swisspacer, ColorFull, Sealed glazing unit with $U = 1.0 \text{ W/m}^2\text{k}$ until $U = 0.5 \text{ W/m}^2\text{k}$ and more.

Select PIXEL, if in addition to great performance you appreciate unique design. Sleeker profile and designer handle will fit in with any interior! **A perfect combination of elegance, aesthetics and modern technology, providing up to 22% more light in a room.**
